

## SolarInvert Energy Solutions

# Cape Town Energy Storage Solution

## Overview

---

Can Cape Town protect itself from load shedding?

The City of Cape Town is actively preparing for upgrades at Steenbras, including a study on expanding the lower dam's size to increase storage capacity. A major refurbishment is scheduled for 2027. By increasing the storage space available, the city could potentially protect itself from even more stages of load shedding.

Are energy storage systems scalable?

We deliver Low Voltage, High Voltage, and Utility-Scale Storage Systems that are scalable. Whether you're seeking off-grid independence or grid-connected benefits, we provide reliable Energy Storage Solutions that ensure performance, safety, and long-term sustainability.

Why should you choose energy storage solutions?

Whether you're seeking off-grid independence or grid-connected benefits, we provide reliable Energy Storage Solutions that ensure performance, safety, and long-term sustainability. Our solutions deliver outstanding performance, supported by a 10-Year Warranty and up to 8,000 Life Cycles.

What is a Steenbras pumped storage station?

Located in Cape Town, the Steenbras Pumped Storage Station plays a pivotal role in protecting the city's residents, businesses, and economy from the adverse effects of load shedding. The facility can shield the city from one or two stages of power cuts, depending on the lower dam levels.

Who makes lithium energy storage?

IES specialises in manufacturing Lithium Energy storage for residential, C&I and utility scale applications.
