

SolarInvert Energy Solutions

Cape Verde China Vanadium Energy Storage New Energy Company

Overview

Does VRB energy have a vanadium redox flow battery?

In mid-July, China's National Photovoltaic and Energy Demonstration Experimental Center began testing VRB Energy's vanadium redox flow batteries at its Daqing facility in northeastern China. VRB Energy claims its vanadium redox flow storage systems rely on low-cost ion-exchange membrane and bipole material, and long-life electrolyte formulation.

What is VRB energy doing in Hubei Zaoyang?

“VRB Energy has participated, since 2019, in the construction of the first phase of the 3 MW plus 3 MW/12 MWh vanadium redox flow battery energy storage phase of the 10 MW solar and storage project in Hubei Zaoyang, and the project is working well,” said VRB chief executive, Huang Mianyan.

Who owns China's energy storage facility?

The storage facility will be owned by Hubei Green-Move Zhongvan New Energy Co Ltd (Green Move ZF) which is, in turn, owned 70% by China's largest energy company, the State Power Investment Corporation (SPIC); 20% by Hubei Pingfan Ruifeng New Energy Co Ltd; and 10% by Chinese real estate developer Wuhan Yuanxing Real Estate Development Co Ltd.
