

## SolarInvert Energy Solutions

# Centralized energy storage project in Antwerp Belgium

## Overview

---

TotalEnergies has launched an energy storage project at its Antwerp refinery (Belgium) with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households. Does totalenergies have energy storage projects in Belgium?

Download the Press Release TotalEnergies has launched an energy storage project at its Antwerp refinery (Belgium) with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households. A First Flagship Energy Storage Project in Belgium.

What is the largest energy storage project in Europe?

A First Flagship Energy Storage Project in Belgium After commissioning four battery parks in France offering total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe.

How many MW / 150 MWh will totalenergies store in Belgium?

These two projects, which represent a global investment of nearly €70 million, will bring TotalEnergies' storage capacity in Belgium to 50 MW / 150 MWh. In July 2024, we signed the final investment decision for a 100 MW/200 MWh battery electricity storage project in Dahlem.

What is the largest European battery-based energy storage project?

In May 2023, we launched our largest European battery-based energy storage project at the Antwerp platform in Belgium. With its 40 containers, the site will develop a capacity of 75 MWh, which is equivalent to the daily consumption of almost 10,000 homes.

How much power does totalenergies have in Belgium?

It will have a power rating of 25 MW and capacity of 75 MWh, thanks to the forty "Intensium Max High Energy" lithium-ion containers supplied by Saft. These two projects, which represent a global investment of nearly €70 million,

will bring TotalEnergies' storage capacity in Belgium to 50 MW / 150 MWh.

When will totalenergies start-up in Belgium?

Start-up is expected at the end of 2025. These two projects, which represent a global investment of nearly €70 million, will bring TotalEnergies' storage capacity in Belgium to 50 MW / 150 MWh. These battery storage sites play a key role in the resilience of the electricity system, providing flexibility and helping solve grid congestion problems.
