China Communications 5G Base Station Brand

Overview

How many 5G base stations are there in China?

With 4.19 million 5G base stations already operational across China, the MIIT emphasized that “promoting 5G revolution and 6G innovation will be one of the priorities” for 2025, according to a report by Chinese newspaper China Daily. Chinese main operators are China Mobile, China Telecom and China Unicom.

How many 5G base stations are there in 2024?

“Accumulatively, there were over 2.4 million 5G base stations put into use [at the end of 2024]. We have built the world’s first large-scale commercial 5G-A network, with RedCap covering all cities nationwide and gigabit broadband covering 480 million households,” said China Mobile in its annual report.

Who makes 5G in China?

A paid subscription is required for full access. As of 2023, 58 percent of all 5G base stations in China had been manufactured by Huawei. Its closest competitor was ZTE with a market share of 31 percent. Both telecom manufacturers have maintained a similar market share throughout all bidding rounds since 2020.

Who are China's 5G operators?

Chinese main operators are China Mobile, China Telecom and China Unicom. In addition to its expected expansion in the 5G field, China noted that it is also set to begin trials for 10-gigabit optical networks and enhance computing power infrastructure, reflecting the growing demand for artificial intelligence (AI) technologies.

How many people use 5G in China?

With strong government support, the three big companies invested heavily in the construction of the country's 5G network. As a result, China had

comprehensive 5G coverage that provided high-speed mobile internet to almost 600 million 5G users . Foreign tech in the Chinese telecom market?

.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.
