# China Communications 5G base station dormancy

## Overview

---

How many 5G base stations are there in China?

With 4.19 million 5G base stations already operational across China, the MIIT emphasized that “promoting 5G revolution and 6G innovation will be one of the priorities” for 2025, according to a report by Chinese newspaper China Daily. Chinese main operators are China Mobile, China Telecom and China Unicom.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.

Will 5G improve public services?

Official numbers for the US suggest that the US built 100,000 base stations between the years 2019 and 2021 and while Americans are looking at 5G to stream videos better and play games on their increasingly powerful smartphones, China is looking to deploy the technology for improved delivery of public services.

What is China's ambitious 5G project?

China's ambitious project is not just aimed at delivering different types of content to users but also taking its production capacities to the next level. The country has been working to incorporate 5G technology into mining, power supply, and other industrial sectors in a bid to improve efficiency and reduce costs.

Who are China's 5G operators?

Chinese main operators are China Mobile, China Telecom and China Unicom.

In addition to its expected expansion in the 5G field, China noted that it is also set to begin trials for 10-gigabit optical networks and enhance computing power infrastructure, reflecting the growing demand for artificial intelligence (AI) technologies.

How 5G technology is transforming China's economy?

According to MIIT data, 5G technologies have been integrated into 71 major economic categories in China. Zhao Zhiguo, the ministry's chief engineer, said the ministry will continue to promote the digital transformation of industries and carry out the AI Plus initiative to speed up new industrialization empowered by digital technologies.
