# China circuit breaker outside in Romania

## Overview

---

What is a circuit breaker?

Circuit breakers are switching devices that can close, carry and break the current under normal circuit conditions and can close and carry and break the current under abnormal circuit conditions within the specified time. WHO ARE WE?

.

What are the different types of circuit breakers?

In terms of voltage level, it can be divided into HV circuit breakers, MV circuit breakers and LV circuit breakers. Based on its arc extinguishing materials, it has oil-immersed type, vacuum type and filling-in SF6 air. Divided by structure: There are universal (frame type), plastic shell type, and small micro break;.

What are the Connection modes of LV circuit breakers?

The connection modes of LV circuit breakers are front board, back board, insert board and drawer board. If users have no special requirements, they supply the LV circuit breakers in front of the board. Front board connection is a common connection mode. (1) Post-board wiring mode: The most important.
