China solar power to battery in Botswana

Overview

Botswana has awarded a \$78.3 million contract to a Chinese group led by China Harbour Engineering Co. to build a 100-megawatt solar plant, with the goal of meeting 50% of the country's energy demand with clean energy by 2036. Can China build a 100 MW solar plant in Botswana?

A group of Chinese companies led by China Harbour Engineering Co has won a contract to build a 100 MW solar plant in Botswana, the country's second utility-scale renewables facility.

When will a 100 MW solar plant start in Botswana?

The project is expected to start generation by the end of 2025. Botswana Power has signed a power purchase agreement for the development of a 100 MW solar plant in Jwaneng, a town in the southern part of the country.

Does Botswana have solar energy?

Botswana has abundant solar energy resources, receiving over 3,200 hours of sunshine per year with an average insulation on a horizontal surface of 21MJ/m², one of the highest rates of insulation in the world. It is essential to take advantage of the abundance of this resource.

Who is sinotswana green energy?

The agreement is in place between Botswana Power and Sinotswana Green Energy, a consortium of Chinese and Botswana companies, jointly established by China Harbor Engineering Co., China International Water and Electric Corp., and New Energy Company Proprietary Ltd., a local company. A tender for the project took place last year.

How long will Botswana Power Plant last?

The deal involves an engineering, procurement and construction contract, with operation and maintenance of the power plant for 25 years. The facility is expected to start generation by the end of 2025. Botswana's President,

Mokgweetsi Masisi, said the project is a key milestone in the country's energy transition.

When will Botswana start generating electricity?

The facility is expected to start generation by the end of 2025. Botswana 's President, Mokgweetsi Masisi, said the project is a key milestone in the country's energy transition. "Our journey toward energy security and transition has begun in earnest and is unstoppable.
