

## SolarInvert Energy Solutions

# Colombia Photovoltaic Glass Project

## Overview

---

Is solar energy a problem in Colombia?

Taking into account that Colombia is mostly a desert area, what was presented above confirms the deficit of photovoltaic development in the ZNIs, that underutilize the solar resource and the great territorial extension. 4. Future picture of the solar energy.

What is the solar energy potential in Colombia?

The potential of solar energy at a global level in Colombia is 4.5 kW h/m<sup>2</sup> /day and the area with an optimal solar resource is the Península de la Guajira, with 6 kW h/m<sup>2</sup> /day of radiation, surpassing the world average of 3.9 kW h/m<sup>2</sup> /day. In the referenced link , there is an interactive map of the radiation indices in Colombia by IDEAM.

Why are photovoltaic systems important in Colombia?

The implementation of photovoltaic systems in Colombia has enabled 2% of the population in areas that do not have access to electric energy to meet their lighting, refrigeration and leisure needs, allowing them to expand their capacities and improve their quality of life. The systems that have been installed are mainly focused on the rural sector.

How much solar power does Tocancipá have?

In Tocancipá, the interurban zone has a facility with 28 solar lamps of 33 W and 16 reflectors of 22 W, with a solar potential of 12.69 kWp installed; this energy production connected to the grid is used in the Armed Forces Ancient Museum building for the lighting and electricity of the grounds.

How many solar panels does the José Celestino Mutis Botanic Garden have?

The José Celestino Mutis Botanic Garden has a solar photovoltaic system of 39 PV of 245 Wp.

How many people use electricity in Colombia?

In terms of the number of households that have access to the electricity grid in Colombia, it is currently provided with 12.1 million since 2005, represented by 95.8% of the total Colombian population , identifying that of the total electricity generated around 70% of the consumption is residential . Fig. 2. Location of ZNI and SIN.

## Colombia Photovoltaic Glass Project

### Colombia photovoltaic growth

PowerChina to Start Celsia Solar Project Palmyra #3 in Colombia "The Palmyra#3 photovoltaic power station project is an important symbol of Colombia's green energy transformation," ...
