

SolarInvert Energy Solutions

Communication base station lithium battery solar factory

Overview

What is a telecom battery backup system?

A telecom battery backup system is a comprehensive portfolio of energy storage batteries used as backup power for base stations to ensure a reliable and stable power supply. As we are entering the 5G era and the energy consumption of 5G base stations has been substantially increasing, this system is playing a more significant role than ever before.

Should telecommunication operators invest in a telecom battery backup system?

Investing in a telecom battery backup system is always one of the priorities for telecommunication operators in the 5G era. Sunwoda 48V telecom batteries have a capacity covering 50Ah-150Ah, which can easily meet the power backup needs of macro and micro base stations.

How to cooperate with zplithium for lithium battery series new energy products?

For lithium battery series new energy products cooperation, please contact with our export department for offer and details specifications. Please send your inquire to zp@zplithium.com for more details. Colombia's second largest bank visited us to explore investment opportunities in the iron and lithium battery sector in the new energy industry.

Who signed ZP lithium first overseas lithium battery investment project?

ZP LITHIUM first overseas lithium battery investment project was signed in Beijing. Senior officials from the Ministry of Commerce and Bangladesh Prime Minister Sheikh Hasina attended and witnessed the signing ceremony.

 **Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 3 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

 **Intelligent
Simple O&M**

- IP68 Protection Degree: support outdoor installation
- Smart 11 V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 **Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- ARC Function (Optional): when an arc fault is detected the inverter immediately stops operation
