Compact power station factory in Myanmar

Overview

Where will Myanmar's new power plant be built?

The power plant will be built on a greenfield site spread across 29.8 acres of land in the Myingyan district of the Mandalay division in central Myanmar. It will be operated by Sembcorp Myingyan Power Company, a subsidiary of Sembcorp Industries, for 22 years, following which the Myanmar Government will take ownership.

How does Myanmar's Solar power project work?

It's the second solar power project completed in Myanmar, generating more than 200,000 kilowatt-hours electricity per day and 70.599 million kilowatt-hours per year. The generated electricity will be fed to the national grid via the 33KV transmission line to Thapyaywa Main Station.

Where is the Myingyan power plant located?

The Myingyan power plant will be built in Taungtha, a township in the Myingyan district of Mandalay division, Myanmar. Credit: TUBS. The Myingyan combined-cycle gas turbine (CCGT) power plant is currently under development in Taungtha, a township in the Myingyan district of Mandalay, Myanmar.

Where is the Myingyan CCGT power plant located?

The Myingyan power plant will be built in Taungtha, a township in the Myingyan district of Mandalay division, Myanmar. Credit: TUBS. The Myingyan CCGT power plant will be installed with two GE 6F.03 gas turbines. Credit: Ministry of Information of Myanmar.

What is Tigyt power station?

a Global Energy Monitor project. Tigyt power station is an operating power station of at least 120-megawatts (MW) in Piinlaung Township, Taunggyi, Shan, Myanmar. It is also known as Tikyt, or Takyt power station, Tayyt.

Who will generate electricity from the Myingyan power plant?

Electricity generated by the Myingyan power plant will be supplied to Electric Power Generation Enterprise (EPGE). Credit: Ministry of Electricity and Energy. The Myingyan power plant will be built in Taungtha, a township in the Myingyan district of Mandalay division, Myanmar. Credit: TUBS.
