

## SolarInvert Energy Solutions

# Congo photovoltaic folding container mobile house wholesale

## Overview

---

What is a mobile photovoltaic system?

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container technology.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

What is a foldable container?

The foldable design saves space and reduces transport costs. Strong, secure, and easy to install, it suits various temporary uses. A modular, collapsible structure designed for easy assembly and disassembly. The container is stackable & Easily transportable. The design expands space for comfort and versatility.

How many installers does a solarcontainer need?

At least 3-4 installers and 1 crane operator are needed to put the

Solarcontainer into operation within one day. How many households can one Solarcontainer supply with electricity?
