

## SolarInvert Energy Solutions

# Construction conditions of Funafuti energy storage photovoltaic

## Overview

---

How much energy will Funafuti generate a year?

Through this new FSPV system 174.2 megawatts per hour of electricity will be generated each year, meeting two percent of Funafuti's annual energy demand. This innovative clean energy source will reduce the country's reliance on diesel-powered energy generation by 47,100 litres per year – a saving of approximately US\$68,000.

Will 184 solar panels be positioned on Tafua pond in Funafuti?

seeing 184 solar panels positioned on Tafua Pond in Funafuti will reduce the country's reliance on diesel-powered energy generation by 47,100 litres per year. Photo: Supplied.

How much energy does Tuvalu use a year?

Like many Small Island Developing States (SIDS), Tuvalu has been heavily reliant on imported fuel for its diesel-based power generation system. Through this new FSPV system 174.2 megawatts per hour of electricity will be generated each year, meeting two percent of Funafuti's annual energy demand.

## Construction conditions of Funafuti energy storage photovoltaic
