

SolarInvert Energy Solutions

Current price of lithium energy storage power supply in Venezuela

Overview

Who provides the lithium commodity price?

We provide the lithium commodity price for the following: Fastmarkets' mission is to meet the market's data requirements honestly and independently, acting with integrity and care to ensure that the trust and confidence placed in the reliability of our pricing methodologies is maintained.

What is a lithium futures contract?

The new lithium futures [contract] will provide our customers with another tool for managing the price risk associated with the manufacturing of electric vehicles. Get long-term clarity and market intelligence in the critical lithium market Understand the battery material demands of today and plan for tomorrow Trade on market-reflective prices.

Why should you trade with Iosco-compliant lithium price data?

Trade with lithium price data that is unbiased, IOSCO-compliant and widely used across the energy commodity markets. Our lithium prices are market-reflective, assessing both the buy- and sell-side of transactions.

Are Lithium prices market-reflective?

Our lithium prices are market-reflective, assessing both the buy- and sell-side of transactions. You need transparency and clarity in these volatile markets and we recognize the importance of being clear about our lithium price assessment and index process. Our independently audited lithium pricing process aligns with core IOSCO principles.

What is Iosco's independent audited lithium pricing process?

Our independently audited lithium pricing process aligns with core IOSCO principles. Our price reporters are required to follow robust pricing procedures, clearly defined methodologies and price specifications during

their market reporting and pricing sessions. Fastmarkets has more than 150 years of specialist commodity expertise.
