

## SolarInvert Energy Solutions

# Customized energy storage battery for Sao Paulo Brazil

## Overview

---

What is Brazil's largest battery storage project?

Further details about Brazil's largest battery storage project to date have been revealed including its integrators and equipment providers. The inauguration of the 30MW/60MWh system took place last year, on the networks of transmission system operator (TSO) ISO CTEEP, as reported by Energy-Storage.news in November.

Who makes a battery in Brazil?

Today, Freedom Won is Africa's largest battery manufacturer and has operated in several countries, including Brazil. One of their main products is the LiTE series, which can be used in household, commercial, industrial, even marine applications. AES Brasil, previously known as AES Tiete, is an energy company established in 1999.

Can Brazil be a big battery storage country?

With well-designed policies and regulations, Brazil has significant potential to follow in the footsteps of jurisdictions like California and Chile for large-scale battery storage, Germany for distributed and large-scale storage, and Australia for both pumped hydro and large-scale battery systems.

Is ISO CTEEP the first large-scale battery energy storage system?

ISO CTEEP claimed it as the first large-scale battery energy storage system (BESS) on Brazil's transmission grid. The project required a total US\$27 million investment. The transmission operator is permitted by regulations to earn up to US\$5 million revenues from the asset each year.

What factors influence the battery storage industry in Brazil?

When exploring the battery storage industry in Brazil, several key considerations come into play. The regulatory environment is essential, as the Brazilian government has been increasingly supportive of renewable energy

initiatives, which can influence market dynamics.

Can foreigners invest in battery storage businesses in Brazil?

Investment, incentives and taxation scenarios According to Brazilian law, there are no legal restrictions on direct foreign investment in the battery storage businesses or in the power sector (except in very specific segments or sectors of the economy).
