

## SolarInvert Energy Solutions

# Czech lithium battery pack customization

## Overview

---

What is a custom battery pack assembly service?

CMB's custom battery pack assembly services involve evaluating battery chemistries, casing design, and management systems based on customer needs. The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements.

What is a custom LiFePO4 battery pack?

Our custom LiFePO4 battery packs are made in cylindrical and prismatic formats. LiPo batteries allow for greater flexibility and ensure the perfect fit for vehicles, machinery, and other various devices with unusual dimensions and weight requirements. Why Choose CMB As Your Custom Battery Pack Manufacturer?

What makes CMB a great battery pack company?

CMB boasts a highly skilled and experienced custom battery pack engineering team led by a CTO with over 15 years of experience in lithium-ion battery technology with industry giants CATL, BYD, and BAK. Our team of 5 specialized engineers brings diverse skills in design, manufacturing, testing, and quality control.

What is a 21700 lithium ion battery?

CMB's 21700 Li-ion battery packs offer advanced lithium-ion battery technology in compact and high-energy-density packaging. They provide superior power and longevity suitable for various applications. Our custom low-temperature batteries are specially designed to excel in cold environments.

Which lithium ion battery should I Choose?

Build Now! We only use the best quality lithium cells. They offer more energy and ensure that your device lasts as long as it should. If you need the batteries that needs to be charged really fast, this is your best choice. Grade A

cells allow rapid charging. The demand for lithium ion batteries has been increasing lately.
