Da5000w pure sine wave inverter

Overview

What is a swp5000 da24?

Article nr. The SWP5000-DA24 is an inverter (converter) that converts a DC voltage from 24V to 230V AC voltage (pure sine wave) and can supply an AC current of 21.7A. The continuous power is 5000W but it can provide a peak power of 0W. This way you always have sufficient 230V AC voltage available.

What is 5000W pure sine wave inverter used for?

Superior performance, high safety and easy to operate. Superior performance, high safety and easy to operate. 5000W pure sine wave inverter run quietly, 12V DC to 110V/220/230V/240V DC, LCD display, it can be used in vehicles, ambulances, RV, boats and traffic lights.

What is the output voltage of a 5000W inverter?

The 5000W inverter has a wide input range from 20V – 31V DC. Both the input and output voltage can be read out on a digital display. This inverter is also available with a connection for an external switch under article number SWP5000-DA24-RC.

What is pure sinusoidal inverter?

Pure sinusoidal inverter provides a reliable and efficient solution for delivering high-quality AC power from DC sources, ensuring smooth operation of sensitive equipment and maintaining comfort and convenience in various settings.

Does DWE offer a DC/AC converter (inverter)?

DWE offers a wide range of DC/AC converters (inverters). The inverters are available from 400W to 8000W and larger. Output voltages of 110V AC or 120V AC with 60Hz are also possible. Ask about the different options.

What is intelligent cooling fan in 12V pure sine wave inverter?

Intelligent cooling fan in 12V pure sine wave inverter ensures quieter operation compared to traditional fan, enhancing user comfort. It contributes to environmental sustainability by reducing energy waste and emissions. LCD screens consume less power compared to traditional displays, conserving energy and extending battery life.
