

## SolarInvert Energy Solutions

# Daily production of photovoltaic glass 300 tons

## Overview

---

How many metric tons of solar glass a day?

Elsewhere on pv magazine. The Chinese government has revealed that the nation's solar glass capacity has reached 64,000 metric tons per day, while State Grid Corp. of China has announced plans to allocate CNY 26.07 billion (\$4.3 billion) for solar incentives.

How much solar glass can China produce a day?

China's Ministry of Industry and Information Technology has revealed that the country's solar glass capacity reached 64,000 metric tons (MT) per day across 348 production lines from 38 companies at the end of June. It also revealed that 313 production lines with a combined capacity of 59,000 MT are currently operational.

How many tons of glass a year?

As of now, the domestic glass capacity is about 99,000 tons, plus 5,850 tons overseas. In Q1 2024, the industry added 3,100 tons of new capacity and 650 tons of resumption. Considering about 3,500 tons of repair, the actual increase in Q1 is limited. Q2 is expected to increase, with capacity expected to be concentrated in Q3-4.

How many tons of glass are there in 2021?

The glass capacity in 2021, 2022, and 2023 was 46,000, 81,000, and 105,000 tons, with a year-on-year increase of 35+%, 70+%, and 30+%. As of now, the domestic glass capacity is about 99,000 tons, plus 5,850 tons overseas. In Q1 2024, the industry added 3,100 tons of new capacity and 650 tons of resumption.

How much does solar glass cost per square meter?

It also revealed that 313 production lines with a combined capacity of 59,000 MT are currently operational. In the first half of the year, the average price of

solar glass with thicknesses of 2 mm and 3.2 mm were CNY 20.9 (\$0.31) and CNY 27.1 per square meter, respectively.
