

SolarInvert Energy Solutions

Distributed energy storage installation in Slovakia

Overview

What is the capacity of energy storage facility?

Energy storage facility of a cumulative installed capacity of 384 MW, storage capacity allowing a net annual electricity generation of 250 GWh. The storage will consist of several smaller units (~32-64MW) located in Slovakia (central Europe).

Why is Leclanché using a containerised energy storage system?

Leclanché's 5.2 MW, 2.9 MWh containerised energy storage system was integrated into the plant's internal medium voltage grid. It is now being used to help the plant comply with new European secondary frequency control regulations for automatic frequency restoration reserve (aFRR). The regulation went into effect at the beginning of this year.

How many customers does ZSE Energia serve?

In 2019, ZSE Energia serves more than 1 million customers and delivers annually 9 TWh of energy. Realization timeline

2019	2020	1	2021
2022	2	2023	2024
