

## SolarInvert Energy Solutions

# Doha site energy battery cabinet energy

## Overview

---

What is a 500 kilowatt-hour energy storage system in Qatar?

This project is the first of its kind in Qatar to integrate 500 kiloWatt-hours (kWh) of energy storage with the electricity grid, solar power and back-up diesel generators, providing both on-grid and off-grid operation with black start, Voltage (VAR) and Frequency regulation.

What is a BYD containerized energy storage system?

The BYD containerized Energy Storage System is rated at 250 kW (300 KVa) and 500 KWh with nominal output voltage of 415 VAC at a frequency of 50Hz and is outfitted with environmental controls, inverters and transformers, all self-contained, in a 40 foot shipping container to provide stable power supply.

What does Chevron Qatar do?

Carl Atallah, President, Chevron Qatar Ltd said in a public release about the test facility, "Chevron is committed to helping meet the world's energy needs, and to protecting people and the environment.
