

SolarInvert Energy Solutions

EU photovoltaic tiles

Overview

The EU-funded TilePlus project designed new roof tiles with embedded tough photovoltaic cells. This would allow millions of homes across Europe to produce their own energy. Which countries offer integrated solar roofs in Europe?

After Sweden, Norway, Poland and Switzerland, Germany is now the fifth country in Europe where Sunroof is offering its integrated solar roofs. The Sunroof solar tiles take over the functions of normal roofs and generate solar power as well. The extraordinary design looks like modern solar roof tiles.

Are solar roof tiles reshaping Europe's urban landscape?

From solar roof tiles that preserve architectural aesthetics to transparent solar windows harvesting energy without compromising natural light, these innovations are reshaping Europe's urban landscape.

What are sunroof solar tiles?

The Sunroof solar tiles take over the functions of normal roofs and generate solar power as well. The extraordinary design looks like modern solar roof tiles. In addition, less material is needed compared to a standard roof with additional photovoltaics.

Are real roof tiles a good choice for a solar system?

Today, the EU-funded TilePlus project is developing the first solar system made of real roof tiles. These tiles have the same size, shape, and appearance as normal roof tiles. In contrast to standard solar panels or tiles, these are easier to install, more reliable and safer (<120 V operations versus 400 V).

What are solar roof tiles & shingles?

Solar roof tiles and shingles represent a sophisticated evolution in building-integrated photovoltaics, offering homeowners an aesthetically pleasing alternative to traditional solar panels. These innovative products seamlessly

blend into existing roof designs while generating clean energy.

Why should you choose solar roof tiles?

Our flexible manufacturing allows us to deliver visually appealing and cost & energy efficient roofing solutions. Despite changing sun illumination, solar roof tiles is a brilliant way for different world regions to fight CO2 emissions and lower the carbon footprint of growing cities.

EU photovoltaic tiles

Europe Photovoltaic Floor Tiles Market Sustainability

Jul 6, 2025 · Photovoltaic Floor Tiles
Market size was valued at USD 1.5 Billion in 2024 and is forecasted to grow at a CAGR of 13.
