Overview

Who makes bigcap super capacitors?

Our company specializes in the designing, researching, development, producing and sale of various super capacitors which . Liaoning Brother Electronics Technology Co., Ltd is a manufacturer of the Bigcap® Super capacitors which is located at High-TechTechnologyIndustrial Park, Chaoyang, Liaoning.

Why should you buy a super capacitor in China?

By carrying forward the valuable experience in the super capacitor industry and combining the advanced electrode activation technology, now our products exhibit advanced technical level in China and stable quality.

What makes LICAP a top 10 supercapacitor company?

One of top 10 supercapacitor companies LICAP has always been committed to the development and production of energy storage solutions with market-leading levels. All along, through continuous research and development and improvement of its own technology, it has met the growing demand for energy storage in the market and various applications.

What is the capacity of a single super capacitor?

The capacity of single super capacitor ranges from 0.01F to 3000F and our products extend to cover more than 100 types in around ten series, such as BRE, BRP and BME.

What are supercapacitors?

Our company is at the forefront of technological advancements, offering innovative energy storage solutions for various industries. Supercapacitors, also known as ultracapacitors, are a revolutionary breakthrough in energy storage technology.

Which supercapacitor company produces 500 million Ah lithium ion batteries?

Recent layout: LISHEN in top 10 supercapacitor companies now has an annual production capacity of 500 million Ah lithium-ion batteries, and its products include six series and hundreds of models of round, square, polymer batteries, power batteries, photovoltaics, and supercapacitors.
