

SolarInvert Energy Solutions

Emergency communication equipment lte private network base station

Overview

Supports all the FDD LTE BandsSWaP Superior: about the size of a PRC117G tactical radio and weighs about 18 lbs. (w/o battery). It offers four hours of operation.

What is private LTE & how does it work?

As other agencies arrive on the scene and are fitted with JRC technology, they can also seamlessly connect to tactical teams' further expanding the network. Private LTE in emergency incidents, can provide a instant, reliable, resilient and secure communication, supporting real time voice, video data sharing.

Why should you choose a private LTE solution?

It is also essential that private LTE solutions allow teams on land mobile radios to communicate with teams on mobile devices in the network. The size, weight, and robustness of the JRC portable tactical solution, LTEBOX, make it an excellent choice when different tactical teams are deployed.

Which eNodeB is best for private LTE?

Requires optional MBT module. The LTE box is ideal for vehicle mounted solution. It can be powered by the battery of the vehicle and be mounted in a rack or in a car boot. JRC eNodeB has been specifically designed for Private LTE. It is a Best-in-Class base station in the market. The design is self-contained and small yet powerful.

What is Stinn Ltemp?

STINN LTemp, a quickly deployable LTE service, overcomes the challenges of connecting operators and first responders to an IP network, anytime and anywhere in the world to provide critical voice, video, data, and Position Location Information (PLI) services for improved Command, Control (C2) and Situational Awareness (SA).

What is JRC tactical LTE box?

JRC Tactical LTE box is all-in-one solution that provides tactical communication

in the field. It is designed for Public safety, Military, Disaster recovery or any other first responder. It is easy to start and support bubble-to-bubble functionality. ○ Compact and light weight vehicle mount design ○ Portable – easily carried out of the vehicle.

What is private LTE - PT JRC spectra India?

Private LTE - PT. JRC SPECTRA INDONESIA JRC Tactical LTE box is all-in-one solution that provides tactical communication in the field. It is designed for Public safety, Military, Disaster recovery or any other first responder. It is easy to start and support bubble-to-bubble functionality. ○ Compact and light weight vehicle mount design
