

## SolarInvert Energy Solutions

# Energy Storage Product PACK

## Overview

---

What is intelligent distributed energy storage system?

“Intelligent Distributed Energy Storage System” is part of smart grid and it is available to support critical load, improve power quality and increase grid flexibility. Product solutions cover the application of on power generation, power transmission, and user-end applications. Long-cycle energy storage battery, which reduces the system OPEX.

What makes a good battery pack?

- Temperature difference of less than 2°C, compensating for the shortcomings in battery consistency within the pack.
- High-voltage-resistant acquisition harness with more reliable performance and a maximum voltage resistance of up to AC7000V.
- Ultra-rigorous testing and verification covering all-weather and multi-operating scenarios.

What products does ABB offer?

They offer stainless steel control stations for automated food processing and lighting designed for dust-filled environments, like flour mills. Additionally, ABB supplies products for all sectors of beverage production, including malt, brewing, wine, spirits, and soft drinks.
