# Energy storage cabinet battery industry intelligent manufacturing can

## Overview

---

Where are energy storage batteries made in China?

An industrial robot processes energy storage batteries at a plant in Nanfeng county in East China's Jiangxi Province on December 16, 2024. China has 400 plants powered by 5G wireless technologies in high-end manufacturing as of November, data from the Ministry of Industry and Information Technology showed. Photo: VCG.

Why is lead a global leader in lithium battery production?

Today, LEAD is a globally trusted provider, partnering with industry leaders to scale up lithium battery production, contributing significantly to the global transition towards clean energy. The global battery manufacturing industry is in the midst of an evolution driven by advanced automation, AI and the rapid rise in EV and energy storage demand.

What is the future of battery manufacturing?

The global battery manufacturing industry is in the midst of an evolution driven by advanced automation, AI and the rapid rise in EV and energy storage demand. This blog examines the current landscape of battery manufacturing, highlighting key challenges, transformative use-cases, and advanced solutions shaping the industry's future.

What is battery management system?

Battery management system used in the field of industrial and commercial energy storage.

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

Who is lead intelligent equipment?

Lead Intelligent Equipment (LEAD), a private company established in 1999, is one of the world's largest suppliers of new energy manufacturing equipment.
