Energy storage container in Bergen Norway

Overview

Where is Northern Lights CO2 stored?

Northern Lights carbon dioxide transport and storage facilities at Øygarden outside Bergen (Photo: Northern Lights) The Northern Lights CO₂ transport and storage facility, in Øygarden, near Bergen, Norway, was officially opened on 26 September. It is a joint venture between Equinor, Shell and TotalEnergies.

What is the world's first cross-border CO2 transport and storage facility?

What is described as the world's first cross-border CO₂ transport and storage facility is completed and "ready to receive and store CO₂." Northern Lights carbon dioxide transport and storage facilities at Øygarden outside Bergen (Photo: Northern Lights).

Where is Bergen Energy Park?

The Energy Park is located in Øygarden, which is an industry-friendly municipality in Vestland county, a 45-minute drive from Bergen city center. It is situated by the main shipping lane with proximity to the traffic hub and industrial clusters at Ågotnes, where Bergen's freight port will also be located.
