# Energy storage device operating costs

## Overview

---

What are energy storage technologies?

Informing the viable application of electricity storage technologies, including batteries and pumped hydro storage, with the latest data and analysis on costs and performance. Energy storage technologies, store energy either as electricity or heat/cold, so it can be used at a later time.

How long does an energy storage system last?

The 2020 Cost and Performance Assessment analyzed energy storage systems from 2 to 10 hours. The 2022 Cost and Performance Assessment analyzes storage system at additional 24- and 100-hour durations.

How much does a gas storage system cost?

Generally speaking, the cost of the gas storage tank is the most expensive part of the entire system. Operation and maintenance costs include energy consumption and equipment maintenance. The current cost of compressed air energy storage systems is between US\$500-1,000/kWh.

What is energy storage cost?

Energy storage cost is an important parameter that determines the application of energy storage technologies and the scale of industrial development. The full life cycle cost of an energy storage power station can be divided into installation cost and operating cost.

How much does a compressed air energy storage system cost?

The current cost of compressed air energy storage systems is between US\$500-1,000/kWh. Supercapacitor energy storage cost: Supercapacitor is a high-power density energy storage device, and its cost is mainly composed of hardware costs, including equipment such as capacitors and control systems.

Which energy storage technologies are included in the 2020 cost and

performance assessment?

The 2020 Cost and Performance Assessment provided installed costs for six energy storage technologies: lithium-ion (Li-ion) batteries, lead-acid batteries, vanadium redox flow batteries, pumped storage hydro, compressed-air energy storage, and hydrogen energy storage.

## Energy storage device operating costs

LiFePO4
Wide temp: -20°C to 55°C
Easy to expand
Floor mount&wall mount
Intelligent BMS
Cycle Life:≥6000
Warranty :10 years
