

SolarInvert Energy Solutions

Energy storage system lithium battery container manufacturer

Overview

What is a lithium battery energy storage container system?

lithium battery energy storage container system mainly used in large-scale commercial and industrial energy storage applications. We offer OEM/ODM solutions with our 15 years in lithium battery industry.

Where is the containerized battery energy storage system manufactured?

The containerized battery energy storage system has been manufactured in Odense, Denmark by the system integrator and turnkey supplier Trident Maritime Systems. The battery system will be shortly transported to Singapore and installed on board the Maersk Cape Town.

Who is Shenzhen sinostorage energy?

Based in China, Shenzhen Sinostorage Energy Co., Ltd is a specialist manufacturer of battery energy storage systems and back-up power solutions for various commercial, industrial, and residential scenarios.

Why should you choose a lithium-ion battery storage container?

Flexibility and scalability: Compared with traditional energy storage power stations, lithium-ion battery storage containers can be transported by sea and land, no need to be installed in one fixed place and subject to geographical restrictions.

What is a containerized energy storage system?

The Containerized energy storage system refers to large lithium energy storage systems installed in sturdy, portable shipping containers, which usually range from 5ft, 10ft, 20ft, and 40ft, and mainly focus on 50Kwh to 10Mwh.

Why should you choose ESS battery energy storage systems?

Marine ESS: ESS provides targeted solutions for large ships or cargo ships, outputting clean and safe energy for ships. Why Choose Our Containerized Battery Energy Storage Systems?

OEM/ODM Services: As an experienced manufacturer and supplier, we offer OEM/ODM services to meet the specific requirements of your energy storage needs.
