

## SolarInvert Energy Solutions

# Ethiopia s 5gw photovoltaic module supporting project

## Overview

---

Is Ethiopia exempt from tariffs for bifacial solar cells?

Ethiopia is exempt from tariffs for bifacial solar cells under Section 201 of the Trade Act of 1974 of the U.S. "We are thrilled to embark on this ambitious project, which will enable us to rapidly scale up solar cell production to meet the needs of our planned module facility in the United States.

How many jobs will a bifacial solar plant create in Ethiopia?

Once complete, TOYO estimates the new facility will create up to 880 jobs, including manufacturing and engineering. Ethiopia is exempt from tariffs for bifacial solar cells under Section 201 of the Trade Act of 1974 of the U.S.

Where does Ethiopia's electricity come from?

"Approximately 90% of Ethiopia's electricity generation comes from hydropower, with wind contributing 8% and thermal sources accounting for the remaining 2%.

How many jobs will a Toyo plant create in Ethiopia?

TOYO has selected a 31,500 m<sup>2</sup> facility in Hawassa that will be modified to meet the needs of a modern, automated cell production. Once complete, TOYO estimates the new facility will create up to 880 jobs, including manufacturing and engineering. Ethiopia.

Why is Toyo building a green power plant?

The new facility will be able to take advantage of this green power supply to advancing TOYO's goal of reducing the carbon footprint across our supply chain as this issue becomes increasingly important to utility-scale developers in the U.S., Europe, and other markets.
