

SolarInvert Energy Solutions

Fiji energy storage power supply customization

Overview

Who is island solar Fiji?

Island Solar Fiji is your trusted installer of quality solar systems and battery storage. We work with you to improve your power reliability and save the planet.

What is the supply voltage in Fiji?

The supply voltage in Fiji is 240V with a frequency of 50 Hz. For most of your personal electronics, including mobile phones, laptops, tablets, and cameras – you will not need a converter because they are almost always dual voltage (typically 100-240V).

Why should you choose island solar Fiji?

Island Solar Fiji ensures its commitment to quality and reliability by exclusively partnering with trusted and reputable solar brands. Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji.

Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, Sungrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.
