

SolarInvert Energy Solutions

Freetown Energy Storage Photovoltaic Combiner Box Merchant

**FLEXIBLE SETTING OF
MULTIPLE WORKING MODES**

Overview

What is a PV combiner box?

A PV combiner box (solar panel combiner boxes, or DC combiner box) is an electrical distribution board. Its main purpose is to combine multiple DC inputs from the panels in the system into a single DC output.

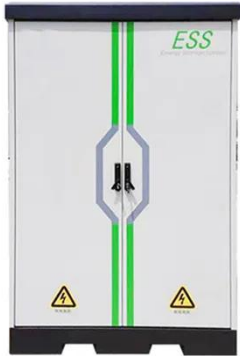

Which fscb-pv2/1 DC combiner box is suitable for inverter?

FSCB-PV2/1 DC combiner box is suitable for inverter (MAX input voltage DC550V/DC1000V, 2 PV input channel, 1 output channel, single inverter).
FSCB-PV6/1 PV 1000V combiner box bus synthetic DC input of 6 PV components to 1 output. Each channel is with a fuse.

Does ABB offer prewired solar combiner boxes?

ABB also offers prewired solar combiner boxes with not only string protection, surge protection and disconnection but also with additional monitoring devices. The monitoring device CMS PV collects all main information such as string current, voltage and temperature in one device.
