

## SolarInvert Energy Solutions

# Georgetown Photovoltaic Energy Storage Power

## Overview

---

What is Georgetown solar PV Park?

Georgetown Solar PV Park is a ground-mounted solar project which is planned over 710 acres. The project is expected to supply enough clean energy to power 30,000 households. The project construction is expected to commence from 2024. Subsequent to that it will enter into commercial operation by 2026.

Where is Georgetown Solar headquartered?

Georgetown Solar Inc (Georgetown Solar) is a publicly-traded renewable energy company. It is headquartered in Alberta, Canada. This content was updated on 14 October 2024.

How does Georgetown buy solar energy?

Georgetown will purchase the energy from the solar facilities without the associated RECs, and through a second financial transaction, purchase Green-e certified RECs through a broker for an equivalent amount of power for the first five of the 15-year agreement.

Does Georgetown have a power purchase agreement?

Two-thirds of the university's electricity needs will be provided through a new recently approved Power Purchase Agreement (PPA). The 15-year agreement allows Georgetown to annually buy 100,000 megawatt-hours of electricity from 11 existing solar plants.

Are energy storage services economically feasible for PV power plants?

Nonetheless, it was also estimated that in 2020 these services could be economically feasible for PV power plants. In contrast, in , the energy storage value of each of these services (firming and time-shift) were studied for a 2.5 MW PV power plant with 4 MW and 3.4 MWh energy storage. In this case, the PV plant is part of a microgrid.

How can energy storage help a large scale photovoltaic power plant?

Li-ion and flow batteries can also provide market oriented services. The best location of the storage should be considered and depends on the service. Energy storage can play an essential role in large scale photovoltaic power plants for complying with the current and future standards (grid codes) or for providing market oriented services.
