

SolarInvert Energy Solutions

Georgetown Solar Energy Storage Equipment Company

Overview

Where is Georgetown solar located?

Georgetown Solar Inc. is developing a 230-megawatt (MWac) solar project located 11 kilometres south of Carseland, Alberta in Vulcan County. The Project encompasses 700 acres (400 soccer fields) and has been sited on privately owned cultivated farmland.

What is the Georgetown project?

The Georgetown Project began development in 2020 with land securement and the initiation of environmental assessments. We are committed to sharing information about the Project and working with the local community to ensure that we receive and understand stakeholder feedback and concerns.

Who is geepower?

GeePower is an energy technology company established in 2018, evolving into a leading provider of wholesale energy storage solutions in China.

How many soccer fields are in the Georgetown project?

The Project encompasses 700 acres (400 soccer fields) and has been sited on privately owned cultivated farmland. The Georgetown Project began development in 2020 with land securement and the initiation of environmental assessments.

How does geepower work?

Geepower integrates customization, production, and delivery in one-stop solutions, both as a manufacturer and supplier, helping you effectively reduce the time and cost of communication and project fulfillment.
