Georgetown Solar PV Panels

Overview

What is Georgetown solar PV Park?

Georgetown Solar PV Park is a ground-mounted solar project which is planned over 710 acres. The project is expected to supply enough clean energy to power 30,000 households. The project construction is expected to commence from 2024. Subsequent to that it will enter into commercial operation by 2026.

Where is Georgetown Solar headquartered?

Georgetown Solar Inc (Georgetown Solar) is a publicly-traded renewable energy company. It is headquartered in Alberta, Canada. This content was updated on 14 October 2024.

How does Georgetown buy solar energy?

Georgetown will purchase the energy from the solar facilities without the associated RECs, and through a second financial transaction, purchase Green-e certified RECs through a broker for an equivalent amount of power for the first five of the 15-year agreement.

Does Georgetown have a power purchase agreement?

Two-thirds of the university's electricity needs will be provided through a new recently approved Power Purchase Agreement (PPA). The 15-year agreement allows Georgetown to annually buy 100,000 megawatt-hours of electricity from 11 existing solar plants.

What is global solar power tracker?

Global Solar Power Tracker, a Global Energy Monitor project. Georgetown Solar Project is a solar photovoltaic (PV) farm in pre-construction in Vulcan County, Alberta, Canada. Read more about Solar capacity ratings. The map below shows the exact location of the solar farm: [Loading map.](#)
