Overview

Will Germany continue to develop battery innovation in the energy sector?

Sara Siddeeq reports for BEST on German plans for continuing battery innovation development across the energy sector. Germany's battery production landscape is characterised by significant investments from both established automotive giants and emerging players.

Does Germany have energy storage?

Germany has made remarkable strides in energy storage, a critical component for balancing the intermittency of renewable energy sources like wind and solar. By the end of 2024, the country had installed approximately 19GWh of battery storage capacity, marking a 50% increase from the previous year.

What makes Germany a leader in the battery industry?

Germany's leadership in the global battery industry extends far beyond production volume. It stems from a foundation of rigorous regulatory frameworks, engineering excellence, and a tightly knit ecosystem that fosters innovation across the battery lifecycle – from cell design to predictive analytics.

How can traditional power plant sites contribute to German and European energy supply?

With this storage facility, traditional power plant sites can make an exemplary contribute to the German and European energy supply. Please click on the image to zoom At the sites of the power plants in Hamm and Neurath, an intelligent, net-worked storage system is being built.

How many MW of battery storage does RWE have?

RWE is currently operating battery storage projects with a capacity of around 1,200 MW worldwide, and is continuously expanding this battery storage portfolio. RWE commissioned a large-scale storage facility in December 2024

and February 2025 in North Rhine-Westphalia.

Who is the leading EV market in Germany?

Tesla led the BEV market in Germany, registering 37,574 vehicles, followed by Volkswagen, Mercedes-Benz, and BMW. The trend highlights a widening gap between EV production capacity and consumer uptake. Germany's battery supply chain faces a complex array of challenges and opportunities.
