High power UPS uninterruptible power supply in Manchester UK

Overview

Why do you need a UPS system?

Don't let unexpected power disruption affect your business operations. UPS systems provide continual power when an interruption in mains power is detected. Uninterruptible power systems help mitigate any issues when there's a lapse in power supply. Applications include use in data centres, telecommunications, medical centres and more.

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply or UPS protects hardware such as computers, data centres, telecommunication equipment or other electrical equipment, where an unexpected power disturbance could cause serious business disruption or data loss.

Where is ups based?

Based in Bolton, Greater Manchester, we are ideally located to supply, install, maintain and hire uninterruptible power supplies throughout the whole of the UK. For more information on UPS call 01204 770990 or contact us online.
