What is the best sine wave inverter?

The SH series is the ultimate sine wave inverter for houses, offices, security, factories and recreational use. These units can be used for anything within its specifications. Pure sine wave output makes this unit a must-have for equipment where power outages range from 2 – 12 hours.

What is a 1000 volt power supply?

The units come in two models: 1000VA-12VDC or 2000VA-24VDC and is equipped with an auto-restart function. Should the mains fail and the unit runs out of battery power, the unit will automatically switch on when the power utility returns. The unit provides critical overload protection and can switch between UPS or inverter mode.
