

SolarInvert Energy Solutions

High quality isolator breaker in Kazakhstan

Overview

Where is izoterm made?

The IZOTERM plant is the first of the factories in Kazakhstan that produces modern heat-insulating materials based on basalt fiber, using European equipment Slovenian concern "EUROVEK". The company has two plants for the production of mineral heaters.

What is izoterm insulation?

IZOTERM is a new generation of domestic high-quality heat and sound insulation materials based on stone wool. This is due to their widespread use in the construction, reconstruction or repair of residential buildings and industrial buildings.

What is izoterm?

Range IZOTERM includes heat and sound insulation boards for insulation of roofs and facades of buildings, for production with shade and roofing panels of the sandwich type, non-load-bearing insulating plates for building envelopes, as well as heat-insulating mats made of basalt fiber, laminated with foil and fiberglass.
