What can I do with old solar lights?

1. Recycled Solar Light Lamp Transform the old lamp in your store into a classy outdoor element beside the walkway. One similar kind of DIY is here to follow. 2. DIY Sun Jar This DIY solar light project requires mason jars, and you'll find many more DIYs below requiring mason jars. Visit Instructables to see the tutorial. 3. DIY Glowing Orbs.

How do you make a solar table light?

Make a perfectly sparkling outdoor table light by placing a solar light in a small glass fish bowl filled with marbles or glass gems. The gems will hold the solar light aloft inside the bowl and filter the light to create a subtle, colorful glow.

How do you make a solar light fixture?

Weave a string of solar twinkle lights around the exterior of the strainer and baskets, then cover the framework with a white tablecloth or sheet and some white mesh. Add felt stickers for the eyes or draw them on with a black marker. Use any glass lantern to create a cute solar light fixture.

How do you use a solar lantern in a garden?

Place the lantern in your garden amongst plants, or use it as a softly glowing and whimsical centerpiece on an outdoor dining or side table. You can also attach a larger solar light to the lid of any jar to add even more light to the

interior. Any regular chandelier can be transformed into a wireless outdoor option with a few modifications.

How do you make a solar address sign?

Turn the Ordinary into Extraordinary; Solar Address Sign Make use of the old solar light kit and a lantern and your normal home address into something that instantly spruces up your home. Other materials you need include self-adhesive record numbers, an opaque, and shelf liner. Visit [The Seasonal Home](#) to see the tutorial.
