How many 5G base stations has Portugal Communications built

Overview

How many base stations in Portugal have 5G?

Since the end of the first half of 2022, ANACOM has been reporting quarterly on progress in the implementation of these latest-generation mobile communications networks. At the end of 1st quarter 2024, according to information reported by operators, there were 9,999 base stations in Portugal with 5G technology.

What is the density of 5G base stations in Portugal?

At the end of 1st quarter 2024, the density of 5G base stations in Portugal was one base station per 10 km² - on average, 97 5G base stations per 100,000 inhabitants.

Which operator has installed the most 5G base stations?

Analysing the data by operator, NOS has installed the most 5G base stations (4,705), followed by Vodafone (3,816) and MEO (1,478). In terms of the number of stations installed per operator compared to the previous quarter, Vodafone reported an increase of 18% (+583 stations), NOS 11% (+470 stations) and MEO 1% (+19 stations).

Are 5G networks growing in Portugal?

While these indicators demonstrate the growth of 5G networks in Portugal, distribution throughout the territory has not been homogeneous, with a greater concentration of stations evident along the western coastal strip, mainly between Viana do Castelo and Setúbal, and along the southern coastal strip (Algarve).

How many 5G base stations are there in the world?

In addition, a total of 819,000 5G base stations have been built by these three telecom giants, accounting for 70% of the world's total. As China has played a leading role in 5G technology, its 5G development has extraordinary

significance for other countries.

When will 5th generation mobile networks be available in Portugal?

The commercial offer associated with 5th generation mobile networks in Portugal was launched at the end of 2021 with the installation of the first base stations. Since the end of the first half of 2022, ANACOM has been reporting quarterly on progress in the implementation of these latest-generation mobile communications networks.
