

SolarInvert Energy Solutions

Huawei ASEAN Energy Storage

Solar

Overview

Why is Huawei partnering with ASEAN?

"This collaboration with Huawei is a testament to our shared commitment to sustainable energy practices in the ASEAN region," he said. "By leveraging Huawei's technological expertise, we aim to drive innovation and contribute to the targets outlined in the ASEAN Plan of Action on Energy Cooperation Phase II: 2021 – 2025.

Who launched ASEAN Energy Data Centre?

Launching of the ASEAN Energy Data Centre, formalised by Dr Nuki Agya Utama, Executive Director of ACE, and Mr. Jin Song, CEO of Digital Power Business Indonesia, PT. Huawei Tech Investment.

What is Huawei digital power?

Driven by innovation, Huawei Digital Power is committed to helping partners build green, simple, smart, and reliable next-generation data centres. To jointly build the ASEAN Energy Data Centre with ACE, Huawei adopts efficient and energy-saving product solutions to improve data center energy efficiency.

What will the ASEAN & ASEAN collaboration look like?

The collaboration will see both companies jointly explore designing and developing solutions such as interconnected power grids across the ASEAN region, low-carbon data centres and industrial parks, and digital energy management for hybrid energy systems.

Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei's cutting-edge digital power technologies and Keppel's expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore's global leading position in green development – we are reshaping the future of energy innovation.

Are data centers a good investment in the ASEAN region?

However, opportunities always come with challenges. Due to the tropical climates of the ASEAN region, data centers feature high cooling requirements, high energy consumption, and power usage effectiveness (PUE) values far higher than the global average.
