

## SolarInvert Energy Solutions

# Huawei Panama Colon Solar Power Generation System

## Overview

---

Why did Huawei open a new distribution center in Panama?

Wang Weihua, office representative of Commercial Development of China in Panama, said the opening of the new distribution center in Panama shows Huawei's confidence in Colon. The center will be a logistic cooperation model between China and Panama, and the company's products will be distributed to 35 countries from this center, he added.

What is Huawei fusionsolar smart PV+ESS?

[Munich, Germany, 19 June, 2024] Huawei Digital Power showcases its next-generation all-scenario FusionSolar Smart PV+ESS solutions with the theme of "Making the Most of Every Ray." The booth presents its cutting-edge solutions and global success stories for utility-scale, ESS, C&I (commercial and industrial), and residential scenarios.

How many employees does Huawei have in Panama?

He explained that Huawei has a current staff of 500 people in Panama, with another 200 direct jobs and hundreds more indirect jobs to be created at the 10,000 square meter distribution center. "It is projected that this new structure will house up to 15 production lines for Huawei products destined for all of Latin America," the minister said.

Who praised Huawei's decision to open a telecommunications company in Panama?

Panamanian President Juan Carlos Varela, Minister of Commerce and Industry Meliton Arrocha, as well as national director of telecommunications Edwin Castillo attended the opening ceremony. Arrocha praised Huawei's decision, which contributed to the promotion of Panama's competitive business environment and political stability.

What is Huawei fusionsolar C&I Oasis solution?

Huawei FusionSolar C&I OASIS Solution is a one-stop solution that integrates optimizers, inverters, ESSs and chargers to help various industries go green and low-carbon by providing system-level active safety and stronger capabilities for green power supply and power grid support.

What is Huawei digital power?

It supplies 100% renewable energy based on PV+ESS synergy to a new city and sets a benchmark for GW-level microgrids. By widely applying the Smart Renewable Energy Generator and digital technologies, Huawei Digital Power aims to build high-quality and all-digital utility-scale power plants.
