

## **SolarInvert Energy Solutions**

# **Huawei inverter in Gothenburg Sweden**

## Overview

---

Where is Huawei based?

In 2000, Huawei established the first overseas R&D office in Sweden. Huawei Technology Sweden is continuously growing and with 300+ R&D engineers located in Stockholm, Gothenburg and Lund we are trailblazing the path to future 5G and beyond with focus on standardization, research and pre-development.

Can Huawei inverters save money on electricity bills?

Thanks to a new partnership with Enequi, owners of Huawei inverters can now save money on their electricity bills. Enequi's Core fundamentally transforms the energy patterns of your property, enabling significant cost savings while maintaining your electricity comfort.

How can Huawei inverter owners optimize energy usage & reduce electricity costs?

From November 2024, current and new Huawei inverter owners can optimize energy usage and reduce electricity costs thanks to the new system integration with Core. Offering both new and existing customers top-tier energy optimization is an important step for us at Huawei.

Who is Huawei Technologies?

Founded in 1987, Huawei Technologies is one of the fastest growing telecommunications and network solutions providers in the world. In 2000, Huawei established the first overseas R&D office in Sweden.

Will enequi add Huawei to a compatible solar inverter?

Naturally, it's also valuable for us to add Huawei to the list of compatible brands. Our hope is that this will have a ripple effect," says Mikael Lindgren, CEO of Enequi. The integration allows solar installations using inverter models SUN2000-M1, SUN2000-MB0, and SUN2000-MAP0 to be energy-cost optimized

with Core from Enequi.
