Imported DC uninterruptible power supply

Overview

What is a DC uninterruptible power supply?

This power supply is supplied by mains voltage and contains an integrated DC uninterruptible power supply feed by an external battery. It is designed to supply the applied load continuously and without interruption, even when the mains power fails.

Are IPOWER DC UPS silent?

The iPower DC UPS are silent in operation. There are no audible alarms or cooling fans. The iPower-H is an AC/DC plug in unit that replaces the existing "wall wart" power supply thereby taking up no extra installation space. The single 3350mAh battery provides up to an hour back up for low powered routers operating from 12Vdc.

How does an uninterruptible power supply work?

The uninterruptible power supplies have e.g. an adjustable maximum buffer time to protect the battery and the unit protects the battery from going into a deep discharge. Draining the battery all the way down can damage it in a very short period of time, especially if this occurs multiple times.

Which devices need IPOWER DC UPS battery backup protection?

Optical Network Termination Units, Routers & Modems, Internet Gateway Hubs, Door Access Panels, CCTV cameras and more are ideal candidates for iPower DC UPS battery backup protection. Depending upon the model, the units are either AC/DC or DC/DC in/out. In the event of DC/DC the existing equipment adapter can be utilised or an alternative sourced.

What is a continuous power supply (UPS)?

UPS is the short version of "uninterruptible power supply". In many applications a continuous power supply is important because power fluctuations and outages can cause damage to control equipment as well as

unexpected down time. This situation can lead to a loss of productivity and revenue.

What is a DC-UPS with external batteries?

The DC-UPS with external VRLA batteries feature the PULS' 1-Battery-Concept: This means each battery is individually charged and monitored, which avoids the need for matched batteries and ensures longest battery life. What is a UPS module?

UPS is the short version of "uninterruptible power supply".
