India Communications 2025 Rural 5G Base Station

Overview

How many 5G base stations are there in India?

The ministry revealed that 4.69 lakh (469,000) 5G base stations have been deployed nationwide as of 28 February 2025, to support the growing subscriber base. Currently, 5G services are available in 99.6 per cent of districts across India, with telecom operators exceeding their mandatory rollout obligations.

How many 5G base stations are there in 2025?

The rapid uptake of 5G underscores the increasing demand for high-speed connectivity and expanding digital infrastructure nationwide. The ministry revealed that 4.69 lakh (469,000) 5G base stations have been deployed nationwide as of 28 February 2025, to support the growing subscriber base.

Will India become a major 5G country in 2025?

India is rising to become a major 5G nation and a growth driver for the global telecom market in 2025. India, as the world's most populous country with a population of over 1.4 billion, has enormous growth potential in the network communications market.

Which telecom companies have rolled out 5G in India?

Leading telecom operators Reliance Jio and Bharti Airtel completed their pan-India 5G rollouts in early 2024, while Vodafone Idea (Vi) recently launched its commercial 5G services in Mumbai.

How big is India's 5G subscriber base?

According to Finnish telecom equipment provider Nokia, India's 5G subscriber base is projected to rise from 290 million (29 crores) in 2024 to 770 million (77 crores) by 2028, driven by the growing penetration of 5G-enabled smartphones and continued expansion of high-speed broadband networks.

How many mobile subscribers in India have adopted 5G services?

New Delhi: Nearly 25 crore (250 million) mobile subscribers in India have adopted 5G services since the launch of next-generation networks in October 2022, according to data from the Ministry of Communications. The rapid uptake of 5G underscores the increasing demand for high-speed connectivity and expanding digital infrastructure nationwide.

India Communications 2025 Rural 5G Base Station

Efficient
Higher Revenue

Intelligent
Simple O&M

Flexible
Abundant Configuration

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules
- IP65 Protection Degree, support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD, prevent lightning damage
- Battery Reverse Connection Protection
- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (optional): when an arc fault is detected the inverter immediately stops operation
