

## **SolarInvert Energy Solutions**

# **Industrial and commercial energy storage cabinet communication high voltage box**

## Overview

---

What is a bus cabinet?

The bus cabinet serves as the DC-side bus control unit of the energy storage battery system, connecting the high-voltage box and the storage converter. It integrates the power pool system (stack), optional fuses or circuit breakers, a three-level Battery Management System (BMS/ESMU), and a UPS power supply.

What is bsm48106h?

The BSM48106H is a high-voltage energy storage system based on advanced lithium iron phosphate (LiFePO<sub>4</sub>) battery technology. Developed and produced by Bluesun, it provides reliable power support for a wide range of equipment and systems.

What is bsm48106h battery management system?

The BSM48106H features a three-level Battery Management System (BMS) that monitors and manages critical cell information, including voltage, current, and temperature. Additionally, the BMS balances charging and discharging processes to enhance cycle life.
