

## SolarInvert Energy Solutions

# Industrial lighting solar lights

## Overview

---

Commercial-grade LED light fixtures integrate high-efficiency light-emitting diodes (LEDs) with solar panels to capture and convert sunlight into electrical energy, stored in rechargeable lithium batteries for subsequent use during low-light conditions. What are Industrial Lights?

Industrial lights are a critical part of any business and include: These industrial lighting fixtures are specially designed to meet the lighting needs and requirements of commercial areas while considering the environment and luminosity needs of the workspace.

Where can I buy commercial solar LED lights?

You can find commercial solar LED lights at Industrial Lighting Fixtures. They shine brightly without costing a fortune in energy use.

Does ILF have commercial solar LED lights?

Industrial Lighting Fixtures (ILF) offers commercial solar LED lights that you can retrofit pre-existing fixtures with. ILF has commercial solar LED lights.

Do commercial solar lights use power?

Commercial solar lights do not use any power from the power grid. If you're interested in commercial solar lighting but aren't sure which solar LED bulb to choose for your fixtures, contact us or call us at (855) 453-2852. We'll help you select the best industrial solar lighting package for your needs.

Why should you choose flexsol's industrial solar light?

FlexSol's industrial solar light is much more than just stand-alone lighting. For industries and companies, reliability is a key factor in choosing suited lighting. Reliability is also a key factor in the design of the Soluxio.

Is a solar light pole right for your business?

The Soluxio solar light pole is perfect for illuminating industrial perimeters. Light alone is great for industries: it boosts productivity, it makes you quicker at identifying hazards and it is overall better for your employees mental health. FlexSol's industrial solar light is much more than just stand-alone lighting.
