

## SolarInvert Energy Solutions

# Irish energy storage cabinet export companies

## Overview

---

What is energy storage Ireland?

Energy Storage Ireland is a representative association of public and private sector organisations who are interested and active in the development of energy storage in Ireland and Northern Ireland. Delivering the energy storage technologies to enable a secure, carbon free electricity system on the island of Ireland by 2035.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

Can energy storage be deployed in Ireland?

Appropriate and timely regulatory and market design is therefore essential to allow the deployment of energy storage in Ireland at the scale required to achieve current environmental policy objectives. However, the current policy framework is unsuitable to deliver the volumes and types of energy storage we will require.

Does EirGrid / ESBN work in Ireland?

This section on network charging is specific to the Republic of Ireland as the existing EirGrid/ESBN charging regime poses a significant barrier to energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

Does Ireland need a policy framework for energy storage?

A robust policy, regulatory and commercial framework is needed to allow the deployment of energy storage in Ireland at the scale required to achieve current renewable policy objectives and our long-term decarbonisation ambitions. However, the current policy framework is unsuitable to deliver the volumes and types of energy storage we will require.
