Do I need a power adapter in Poland?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Poland, you will need a power adapter and/or a voltage converter/transformer.

Can a universal power adapter fit a Poland outlet?

Universal power adapters usually come with multiple plug types and can be adjusted to fit Poland outlets and many others. If your devices are not compatible with the voltage in your destination country, a voltage converter or transformer will also be necessary to convert the voltage to the appropriate range for your devices.

Do Europeans need a travel adapter in Poland?

Europeans do not need a travel adapter or transformer when traveling to Poland. Most device plugs will work with the outlet types in Poland. Also, the voltage in Poland is the same as in Europe. What Outlet does Poland Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin.

What type of plugs are used in Poland?

Poland uses Type C/E electrical outlets with standard voltage of 230V and 50Hz frequency. If your device plugs don't match Poland's standards, we recommend purchasing suitable travel adapters in advance to ensure proper use. What power plug types are used in Poland?

Type C plugs consist of two round pins and have no grounding.

What type of power outlet is used in Poland?

The power outlets used in Poland are type E—the same outlet that is used in France, Belgium, and Slovakia. Type E plugs have two round pins (4.8mm diameter, spaced 19mm apart) and a hole for what is called an “Earth pin.” The type E socket is compatible with most C and F plugs, which are common throughout Europe.

Do I need a power converter in Poland?

To avoid any problems with your electronics, it is highly recommended to bring a voltage converter and, if necessary, a frequency converter to Poland. This will ensure that your devices operate safely and correctly during your trip. What type of power plugs are used in Poland?
