**Is the battery cabinet on the
passenger plane out of power**

Overview

Can you carry a lithium battery on a plane?

Passengers must receive approval from the airline to carry on portable electronic devices (including medical devices) containing lithium metal or lithium alloy batteries with a lithium content exceeding 2 grams but not exceeding 8 grams or lithium-ion batteries with a rated energy exceeding 100 Wh but not exceeding 160 Wh.

How many batteries can a passenger take on a plane?

The rated energy of each battery should not exceed 100wh. The batteries between 100wh and 160wh must get the permission of the air company; each passenger is allowed to take at most two spare batteries. Power banks without 3C certification (China Compulsory Certification) are banned for domestic flights since June 28, 2025.

Are batteries allowed on a plane?

n batteries are allowed in your carry on based on watt hours (Wh). Batteries 0-100 Wh are allowed on passenger aircraft, 101-160 Wh require ir carrier approval, and batteries exceeding 160 Wh are forbidden. There are additional safety requirements and limitations when placing batteries in checked bags or hen.

How many lithium batteries can a passenger carry?

Each passenger may carry one spare lithium battery with a rated energy of no more than 300 Wh or two spare lithium batteries with a rated energy of no more than 160 Wh each. Spares and lithium batteries removed from their device must be individually packaged to prevent damage (for example, by placing each battery in a protective bag).

Can I bring a power bank on a plane?

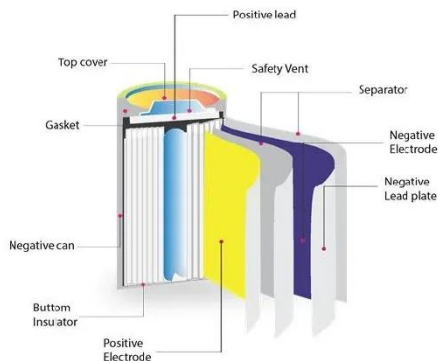

You can bring a typical personal power bank, up to 100 watt hours. However,

multiple airlines and aviation authorities have now introduced new rules regarding them. That's because a fire erupted on a plane caused by one of the portable lithium batteries.

Where can you Store batteries on a Hong Kong Airlines Flight?

Passengers must keep lithium batteries, external batteries, and e-cigarettes in hand luggage placed in the overhead compartments. Cathay Pacific, HK Express, and Hong Kong Airlines: Effective April 7, passengers must store power banks under their seat or in the seat pocket in front of them; storing them in overhead lockers is prohibited.
