

SolarInvert Energy Solutions

Italian Communication Base Station Project Department

Overview

What is the Sardinia Deep Space Antenna (SDSA) project?

To provide dedicated infrastructure that assures effective communications between Earth and space, with a view to supporting the future human exploration of Mars: this is the focus of the Sardinia Deep Space Antenna (SDSA) project.

What does the Department of telecommunications (Comunicazioni) do?

The Department of Telecommunications (Comunicazioni) within the Ministry of Enterprises and Made in Italy (Ministero delle Imprese e del Made in Italy) is responsible for planning and implementing Italy's national digital connectivity plan and telecommunications infrastructures.

Why is the International Space Station important?

One such project was the construction and operation of the International Space Station, which is currently home to a number of Italian astronauts. Thanks to the work of ASI, the Italian scientific community has achieved unprecedented successes in the fields of astrophysics and cosmology.

Is Italy ready for telecommunications & satellite navigation?

The market for telecommunications and satellite navigation - to name but one - is constantly growing, and ASI, with its experience in building and launching satellites, is ensuring that Italy is ready to seize such opportunities.

Who is the Italian company of reference?

With over 20 years of experience in the sector, we are the Italian company of reference for reliable and secure communication solutions.

What is the Italian strategy for ultra broadband 2023-2026?

The Italian Strategy for Ultra Broadband 2023-2026 was approved by the

Interministerial Committee for Digital Transition (CITD) on 6 July 2023. The strategy intends to improve monitoring and planning and optimise public investments in the deployment of high-capacity networks.
